

## What to do if there are Problems in your Greenspace/Park

From time to time, you may experience problems in your park/greenspace, therefore we have formed this guide of what to do, including some examples of what other Friends Groups have dealt with.

Firstly, it is essential you make an assessment of the seriousness of the problem/issue. If you conclude that it is causing **immediate danger** to yourself or any other member of the public then please **call 999**.

Contact details of Medway Council, Local Councillors and Kent Police Community Safety Team are listed on page 7-8.

Problem/Issue	Type	Example	Action
Antisocial behaviour	<i>Fires (e.g. fires that are started intentionally, as a 'camp fire' or a disposable barbeque discarded, which may quickly cause damage and spread if not extinguished properly.)</i>	Friends of Broomhill experienced a group of youths frequently starting fires in the woodland area of the park. On 3 occasions it was essential to call 999 to tackle the fires. They also reported the incidents to 101. They then made contact with the PCSO's for their area. They emphasised the importance of using the 101 service as by doing so the incidents will be logged and investigated. The more people who report the same incidents the better as it pushes it up the list of priorities for Kent Police.	Fires – Call 999
